

Max CreaCine CV™

Chewable Creatine Delivery System

CreaCine CV™ by MMSN is a technologically advanced method for loading and maintaining Creatine levels. This unique cutting edge supplement features, CDS™ technology, MMSN's proprietary Chewable Delivery System. Don't let the great taste of these chewable wafers fool you. Each serving of two wafers contains 2.5g of pure micro-crystalline Creatine Monohydrate and 500mg of L-Glycine. At MMSN we use only the finest quality ingredients guaranteed through HPLC testing for purity. **CreaCine CV™** makes it convenient and delicious to elevate and maintain higher Creatine levels throughout the day, ensuring optimal results.†

Studies indicate that Creatine monohydrate can be very beneficial for lean muscle, strength, and explosive power gains. Studies on sprinters indicate that Creatine supplementation can support faster running and more repetitions during training. **CreaCine CV™** supports muscle gains which supports increases in metabolic rate. Research indicates that the absorption of Creatine, like that found in **CreaCine CV™**, is greatly enhanced by the addition of dextrose to the proprietary formula. Dextrose can improve muscle Creatine uptake for faster saturation of the Creatine muscle pool. This fast saturation leads to more rapid benefits and results. Whether you are in your loading phase or maintenance phase, **CreaCine CV™** makes a delicious and simple way to get a continuous all day supply of Creatine to muscle and L-Glycine for natural Growth Hormone support.†

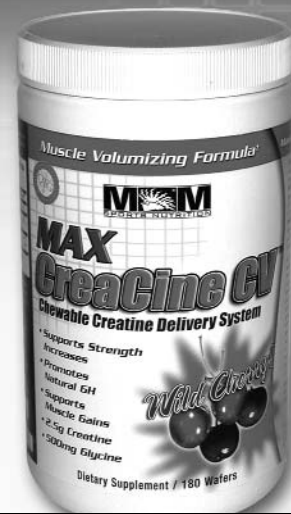

CreaCine CV™ is truly innovative Creatine technology for today's active individual who demands the most from their Creatine supplement.†

Size: 180 Wafers
Serving Size: 2 Wafers (6g)
Servings Per Container: 90

KEY FEATURES

- Supports Strength Increases
- Promotes Natural GH
- Supports Muscle Gains
- 2.5g Creatine
- 500mg Glycine

KEY MESSAGES

- Muscle Volumizing Formula
- Advanced creatine loading and maintenance.†
- Proprietary Chewable Delivery System.†
- Elevate and maintain Creatine all day.†
- Supports faster running and more repetitions.†
- Supports muscle, strength and power gains.†
- Dextrose for enhanced absorption and utilization.†
- L-Glycine for natural Growth Hormone support.†
- Metabolism support.†
- 100% HPLC Tested Micro-Crystalline Creatine.†

TARGET MARKET

Primary: Strength-training athletes and bodybuilders looking to build muscle mass and strength.

Secondary: Endurance athletes looking to volumize muscle cells for more explosiveness and energy.
